

Maintenance Medication Drug List

YourCare Health Plan uses Express Scripts as its Pharmacy Benefit Manager. The Express Scripts Maintenance Drug List contains medications that are generally taken on a long-term or maintenance basis for conditions such as high blood pressure or high cholesterol. This is not an all-inclusive list of maintenance medications, and is subject to change at Express Scripts' discretion. Not all drugs listed are covered by all prescription-drug benefit programs; check your benefit materials and formulary for the specific drugs covered and the copayments for your prescription-drug benefit program. For specific questions about your coverage, please call the phone number on your member ID card.
