

\$25 Gift Card

Dear Member:

It's important to have a Diabetic Dilated Eye Exam completed by an eye care professional once per year. Diabetes can damage the small blood vessels in the back of your eye, which can lead to blindness. Having this eye exam can possibly catch problems early.

YourCare Health Plan would like to reward you a \$25 Wal-Mart gift card for having this eye exam completed. The gift card will be mailed to you after we receive the completed Diabetic Eye Exam Incentive Form at the bottom of the page. It's our way of saying thank you for taking good care of your eyes.

To qualify for the gift card, you must:

- Select an eye care provider that accepts the YourCare Health Plan insurance.
- Call and schedule your appointment for a Diabetic Dilated Eye Exam.
- Complete your portion of the Diabetic Eye Exam Incentive Form.
- **Have the eye care provider sign or stamp in the box below.**
- Send the completed form to YourCare Health Plan via fax or mail.

Diabetic Eye Exam Incentive Form
